EXPERIENCE

Jun 2024 - Now

React JS & React Native Developer

Frontend Developer with 1.8 year of experience in building responsive web and mobile applications using React.js and React Native, with strong skills in UI implementation and cross-platform compatibility.

PROJECTS

- **School Management Application** (React.js, React Native, REST API, Tailwind CSS)
 - Designed a comprehensive system to manage student records, daily attendance, and fee tracking.
 - Developed modules for examination scheduling and staff payroll management with automated report generation.
 - Built a face-recognition based attendance system and QR attendance module for secure and automated tracking.
- **Sales Management Application** (React.js, React Native, REST API, Tailwind CSS)
 - Developed an application to track and manage sales data, customer information, and product performance.
 - Integrated REST APIs to handle large datasets efficiently, ensuring seamless performance on mobile devices.
- **Billing Application** (React.js, React Native, REST API, Tailwind CSS)
 - Created an automated invoice generation system featuring real-time tax calculation and payment tracking.
 - Ensured accurate data handling and smooth user workflow for billing processes with a clean, responsive layout.
